Recommendations and reference contacts

Ivica Vidovic - Ericsson Nikola Tesla

Senior Software Engineering Manager, Head of UDM Operations at Ericsson Nikola Tesla; currently board member at Abysalto

Hrvoje stood out early in his career because he was always eager to learn, challenge the status quo, and take on responsibilities beyond his role. His curiosity, initiative, and drive to improve things made it clear that he had the potential to grow into a strong engineering leader.

Ante Matijaca - Profico

Co-founder of Profico

During his time at Profico, Hrvoje proved to be someone we could truly rely on. He was not afraid to take responsibility, step outside his comfort zone, and push new initiatives that helped move things forward.

Denis Grahovac - Rimac Automobili

Engineering Manager at Rimac then; now Director of Software Engineering at Toming

Hrvoje was a reliable and hard-working engineer who adapted well to the demanding and fast-moving environment at Rimac. What stood out was not only his ability to get things done, but also how easygoing and collaborative he was with the people around him.

Goran Mladenovic - Povio

Head of Freelance at Povio

Hrvoje is a pleasure to work with, open, professional, and transparent in his communication, and someone who reliably delivered on every agreed scope.

Vladan Petrovic - ReneVerse

CTO at ReneVerse; currently Software Architect at Incode

Hrvoje is a top-tier software engineer who makes a next-level impact. At ReneVerse, he was key to developing our core Web2 and Web3 services, most notably architecting a sophisticated ad engagement data system on AWS that powered our real-time targeting. His mastery of serverless, GraphQL, and blockchain integration is matched by his excellent problem-solving and communication skills. He is also a proactive collaborator and a natural mentor who elevates the entire team. Any team would be lucky to have him.

Abhi - Tilt

CEO at Tilt

I have been personally messaged various times about the quality and speed of his work across several projects. Everyone is happy having him onboard.
